

# ABT-W6 / ABT-W6/AB

EN 54-24

## WALL-MOUNTED LOUDSPEAKER (SINGLE/AB)

- ✓ *Compliance with EN 54-24*
- ✓ *Certificate of Conformity issued by CNBOP:  
1438-CPR-0413 and 1438-CPR-0654*
- ✓ *Compliance with BS5839-8 standard  
(Thermal protection)*

The ABT-W6 is an elegant multi-function loudspeaker designed to guarantee the highest acoustic parameters. Its solid casing offers an effective protection against acts of vandalism. The loudspeaker can be mounted either on a wall or on a ceiling.

Additionally, the ABT-W6 loudspeaker can be fixed as an recessed speaker and therefore it is an ideal solution for rooms where aesthetic factors play a significant role.

The loudspeaker offers adjustable power regulation through connectivity to applicable transformer tapplings thus allowing suitable acoustic pressure (the level of sound) within areas of sound emission adequately to the acoustic conditions existing in those areas.

Unlike the standard wall-mounted fire alarm loudspeakers; the ABT-W6/AB is equipped with two in-built electro-acoustic transducers, two transformers and two separate sets of ceramic clamps and fuses, which allow connectivity of two independent A/B loudspeaker lines.

ABT-W6/AB has been designed for application in rooms of such size and acoustic conditions that the design proposes one wall-mounted loudspeaker of VES standard. However, in case of a single fault on the loudspeaker line, there is no loss of the sound coverage area in rooms with installed wall-mounted ABT-W6/AB loudspeakers.

## CHARACTERISTICS

- » *Easy and quick to mount*
- » *Modern and elegant design*
- » *High quality sound of both speech and music*
- » *Ideal for on-wall or in-wall mounting*
